## Values & Vision

**Safety:** Safety is everyone's responsibility. We are committed to creating a safe workplace and to ensuring product and environmental stewardship.

**Integrity:** Our word is our bond. We are candid. We are ethical. We are fair. We fight for what we believe is in our stakeholders' best interest.

**Creativity:** Learning keeps us vital. We use our imagination as well as our experience to look forward and anticipate potential outcomes.

**Collaboration:** Trust in and respect for one another are our foundations. Through openness and teamwork, we work together across divisions, functions, and geographies to find the best solutions possible for our stakeholders.

**Accountability:** We bring rigor, focus, and discipline to how we think, work, and communicate. We deliver on our commitments.

**Winning:** We define our destiny. We are driven by the power of possibility. We have a passion to succeed. We are determined to be the best.

---

## Partnership

- 1985 : We started working with Chemtura in Chile in PU market. At that moment Chemtura was Uniroyal.

- 2007: We started operation in Perú with PU products portfolio.

- 2008: We got the distribution for Argentina.

- 2008 We got Bolivia distribution for PU materials.

- Our sales are 2,6 Millon Dollars per year. We expect to increase for the next 2 years to 4,0 Millions dollars.
-

## Markets and applications

- We are present in the following Markets:

- **Mining**

The mining industry used urethanes for pipe lining, scarpers and hydrocyclones

- **Industrial**

The industrial uses for urethanes are many and include their use as abrasion resistant coatings, liners, guides, and as wheels and pads.

- **Miscellaneous**

There are some urethane products that cannot be classified within one industry. These urethane products are for general purpose and used within a wide variety of industries
